Appendix A. All Related Business Objects 27

1. How to Use This Handbook

In Workday, the **Worker** is the primary business object (PBO) for most HR reporting. Many Worker fields do not return plain values. They return **instances** of other business objects, such as a Supervisory Organization, a Job Profile or a Location. These are the **related business objects** (RBOs). Each one is a doorway to more data, because you can drill into it or pull its fields with *Lookup Related Value* calculated fields.

This handbook profiles the related objects you will use most and lists the exact Worker fields that reach each one. The companion workbook **Worker_Fields_Handbook.xlsx** contains the full field catalog and the curated common-field list.

Field types at a glance

Field Type	Returns	Report tip
Text	A string	Best for exports. Cannot be drilled into.
Numeric	A number	Sum, average and band it.
Currency	An amount	Always pair it with Currency and Frequency.
Date	A date	Use relative-date filters.
Boolean	True / False	Ideal for filters and conditions.
Single instance	One related object	Drill in, or group by it.
Multi-instance	Zero or more related objects	Use subfilters and counts; can multiply rows.
Self referencing instance	The instance itself	Identifies the row's own object.
Rich Text	Formatted text	Display only.

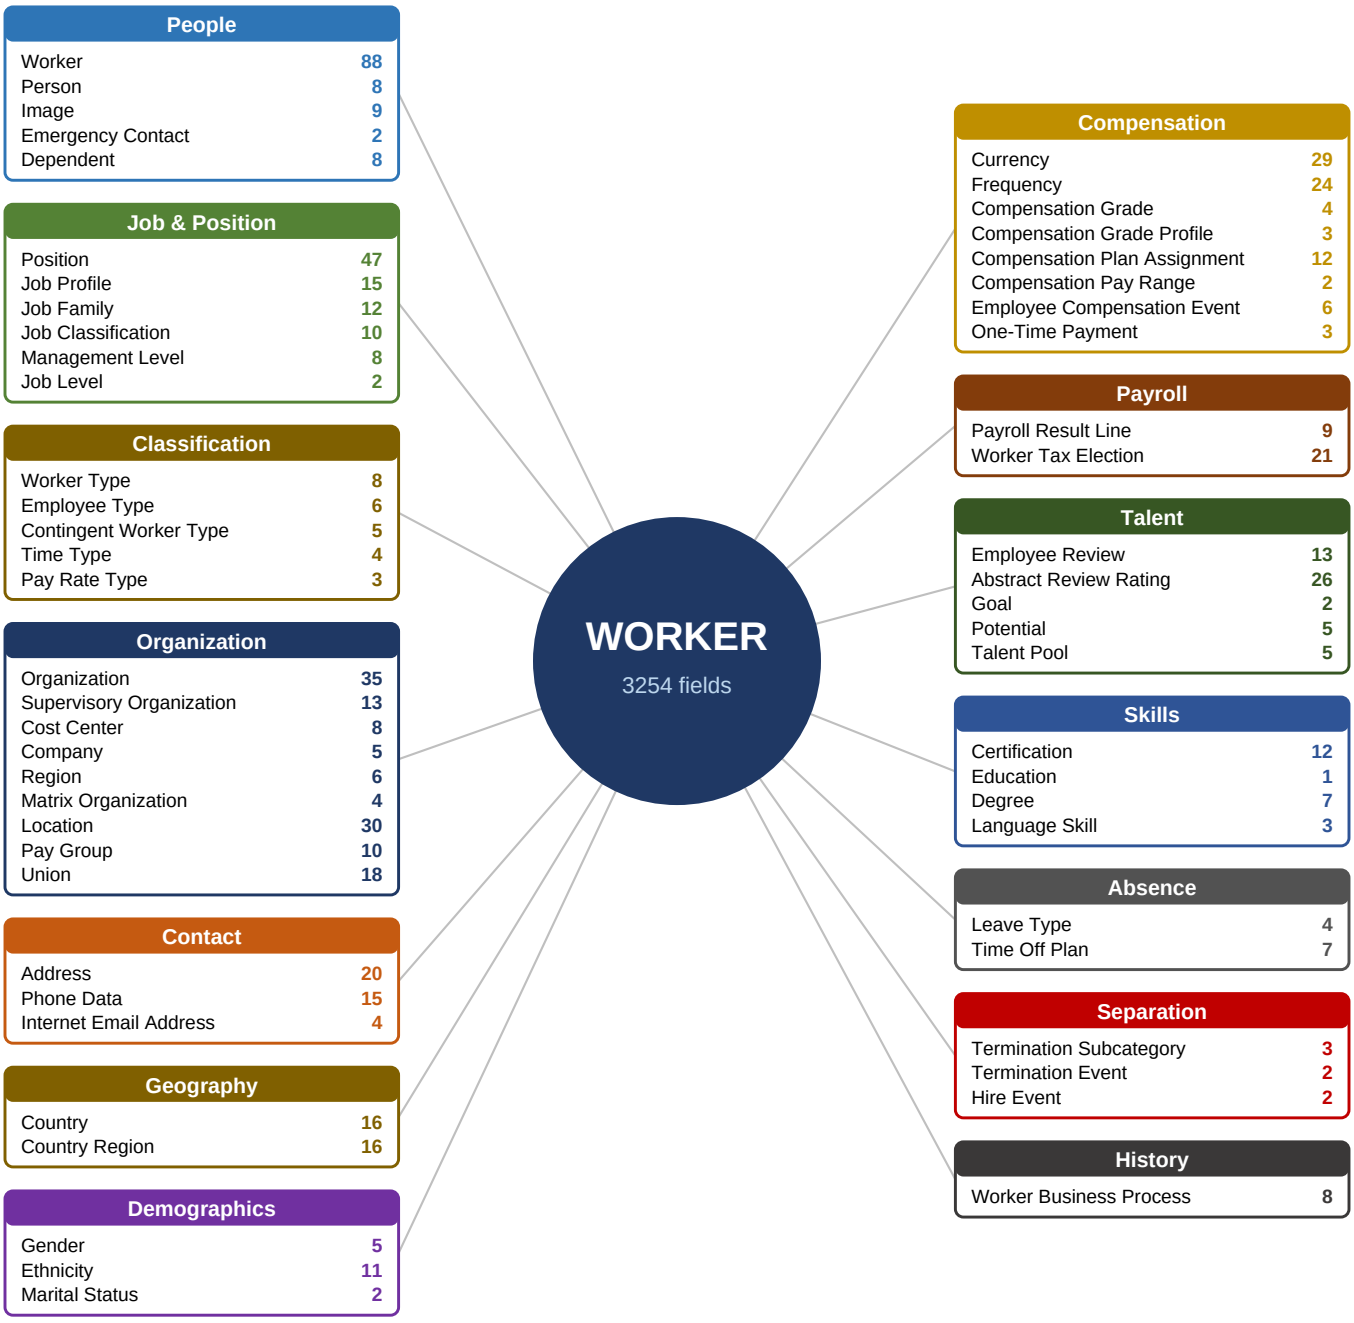

Reading an object profile

Each profile in Section 3 shows: **Links**, the number of Worker fields that return the object (from the RBO file); a short explanation of what the object represents; a reporting tip; and a table of the Worker fields that link to it, with field type, built-in prompts and category from the PBO. Fields marked with • are in the curated common-field list.

Descriptions and tips are general Workday guidance written for this handbook. Field names, types, prompts, categories and link counts come directly from your exports.

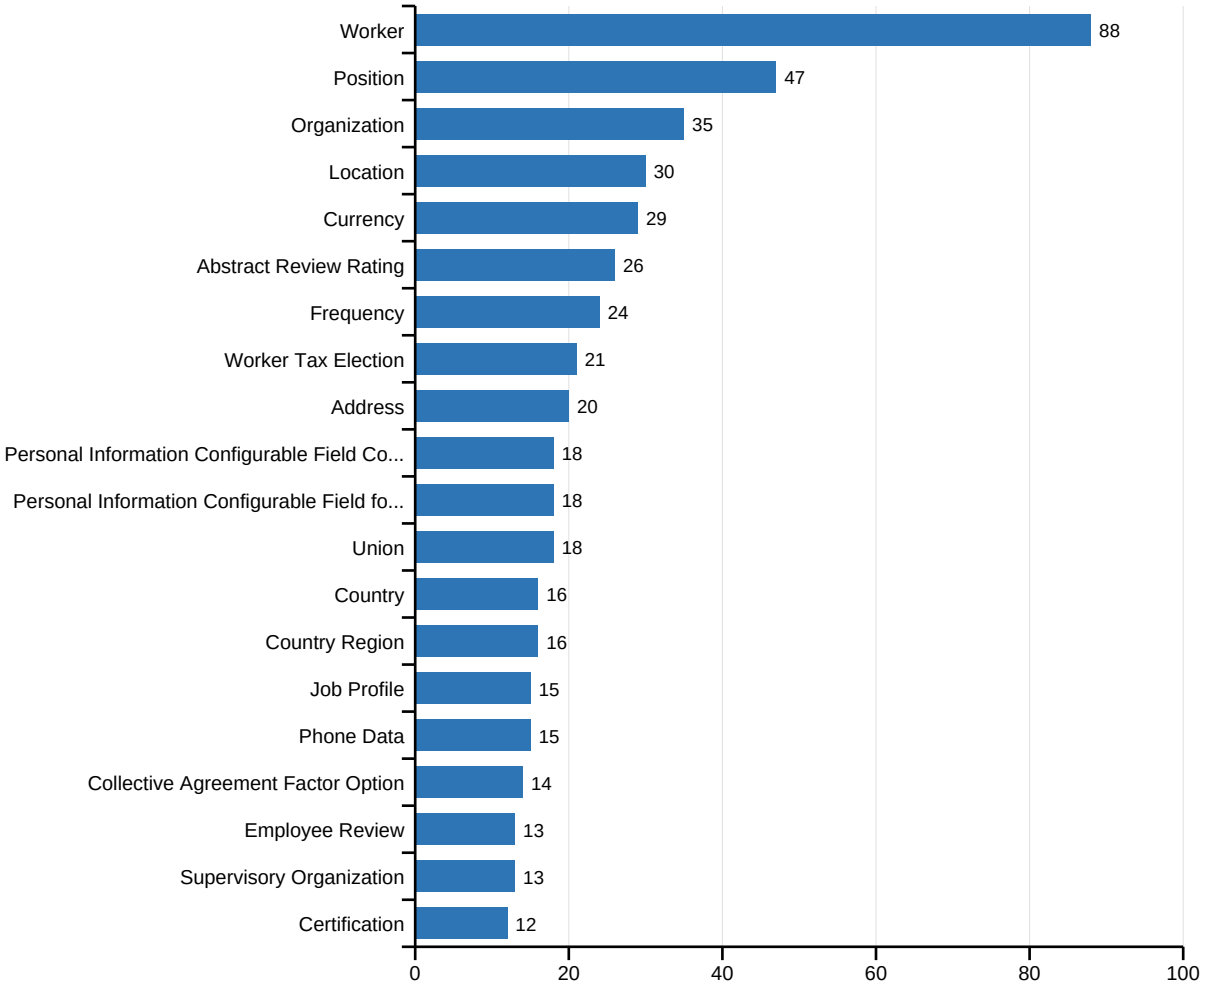

2. Worker Relationship Map

The Worker sits at the center of the HR data model. The diagram groups the profiled related objects by domain. The number beside each object is how many Worker fields link to that object.

Most-connected related objects

The 20 objects that the most Worker fields link to. Highly connected objects are the most useful pivots for reporting.

Link-count distribution: 341 of 635 related objects are reached by only one Worker field. These are specialist objects, listed in Appendix A.

3. Related Object Profiles

People

Worker **Links: 88 | Single: 40 | Multi: 29**

A person who works for the organization: an Employee or a Contingent Worker. The Worker object is the primary business object for this whole handbook.

Tip: Worker fields that return Worker (managers, direct reports, matrix managers) let you walk the management chain inside one report.

Worker Field	Type	Built-in Prompts	Category
• Manager - Level 01	Single instance	-	Organization
• Manager - Level 02	Single instance	-	Organization
• All Managers in Management Chain	Multi-instance	-	Organization
• Direct Reports (Employees)	Multi-instance	-	Job & Position
• Worker	Self referencing instance	-	Benefits Eligibility
• Worker's Manager	Multi-instance	-	Employment
Added By Originator	Single instance	-	Recruiting
Committee Member - Worker	Single instance	-	Committee Memberships
Current Referral Candidate Owner	Single instance	-	Recruiting
Expense Participant as Worker	Single instance	-	Expense Attributes
Expense Payee as Worker	Single instance	-	Payee
Last Review - Manager	Single instance	-	Goals and Reviews

+ 62 more Worker fields return Worker. See the "All Worker Fields" tab in the workbook (filter Related Business Object).

Person **Links: 8 | Single: 2 | Multi: 1**

The underlying person. One Person can be linked to several roles (worker, pre-hire, candidate, dependent).

Tip: Use it to connect a worker to their other roles, such as a former candidate record.

Worker Field	Type	Built-in Prompts	Category
• Person	Single instance	-	Roles
Users with Incorrect Notification Preferences	Single instance	-	Uncategorized
Person in Role	Multi-instance	Show Organization Role	System

Image **Links: 9 | Single: 5 | Multi: 0**

Images stored in Workday, such as worker photos.

Tip: Use for org charts and directories; check that photo security is in place.

Worker Field	Type	Built-in Prompts	Category
• Photo	Single instance	-	Basic Bio
Candidate Photo	Single instance	-	Basic Bio
Committee Candidate Photo	Single instance	-	Committee Candidates
Image	Single instance	-	Candidate
Secured Photo	Single instance	-	Basic Bio

Emergency Contact Links: 2 | Single: 0 | Multi: 2

People to contact in an emergency, with relationship and contact details.

Tip: Sensitive personal data. Restrict through domain security.

Worker Field	Type	Built-in Prompts	Category
• Emergency Contacts	Multi-instance	-	Basic Bio
Emergency Contacts to Recover from 5/8/2015-5/16/2015	Multi-instance	-	Customers

Dependent Links: 8 | Single: 0 | Multi: 8

Dependents registered for benefits.

Tip: Mainly used by benefits reports.

Worker Field	Type	Built-in Prompts	Category
All Dependents With Worker's National ID	Multi-instance	-	Audit
Children enrolled in Medicare Part A	Multi-instance	-	Benefits Eligibility - Medicare
Children not enrolled in Medicare Part A	Multi-instance	-	Benefits Eligibility - Medicare
Children who are enrolled in Medicare Part D EGWP	Multi-instance	-	Benefits Eligibility - Medicare
Children who are NOT enrolled in Medicare Part D EGWP	Multi-instance	-	Benefits Eligibility - Medicare
Dependents	Multi-instance	-	Benefits
Dependents that Use Tobacco	Multi-instance	-	Benefits Eligibility
Spouse	Multi-instance	-	Benefits Eligibility - Medicare

Job & Position

Position Links: 47 | Single: 24 | Multi: 18

A slot the worker fills in a supervisory organization (position management) or a job (job management).

Tip: Base headcount and vacancy reports on Position. Workers with additional jobs hold several positions.

Worker Field	Type	Built-in Prompts	Category
• Position	Single instance	-	Job & Position
• All Positions	Multi-instance	-	Staffing History
Home Position (As of Date)	Single instance	-	Benefits Eligibility
Worker Profile Default Position	Single instance	-	Job & Position
Additional Jobs	Multi-instance	-	Job & Position
Additional Jobs - All	Multi-instance	-	Job & Position
Additional Jobs if Enabled	Multi-instance	-	Job & Position
All Effective Positions	Multi-instance	-	Staffing History
All Positions / Jobs	Multi-instance	-	Job & Position
All Positions and Jobs	Multi-instance	-	Job & Position
Assignment Positions (As of Date)	Multi-instance	-	Benefits Eligibility
Domestic Assignment Positions (As of Date)	Multi-instance	-	Benefits Eligibility

+ 30 more Worker fields return Position. See the "All Worker Fields" tab in the workbook (filter Related Business Object).

Job Profile **Links: 15 | Single: 6 | Multi: 7**

Generic job definition: job code, job family, management level, job classifications, pay-rate defaults.

Tip: The core of job architecture. Most compensation and EEO reporting groups by Job Profile.

Worker Field	Type	Built-in Prompts	Category
• Job Profile	Single instance	-	Job & Position
Job Profile (Benefits)	Single instance	-	Benefits Eligibility
Job Profile (Current, Last or Future)	Single instance	-	Job & Position
Job Profile (Primary)	Single instance	-	Job & Position
Job Profile - Primary Position	Single instance	-	Job & Position
Job Profile for Committee Candidate	Single instance	-	Committee Candidates
All Candidate Job Profiles	Multi-instance	-	Job & Position
All Job Profiles	Multi-instance	-	Job & Position
Job Interests	Multi-instance	-	Career Development
Job Profile - All Positions	Multi-instance	-	Job & Position
Job Profiles	Multi-instance	-	Job & Position
Job Profiles (Benefit Jobs)	Multi-instance	-	Benefits Eligibility

+ 2 more Worker fields return Job Profile. See the "All Worker Fields" tab in the workbook (filter Related Business Object).

Job Family **Links: 12 | Single: 1 | Multi: 8**

Groups related job profiles. Job Family Groups roll them up again.

Tip: Use for workforce mix and career path analysis.

Worker Field	Type	Built-in Prompts	Category
• Job Family	Multi-instance	-	Job & Position
• Job Family Group	Multi-instance	-	Job & Position
Single Job Family	Single instance	-	Job & Position
Candidate Job Families	Multi-instance	-	Job & Position
Candidate Job Family	Multi-instance	-	Job & Position
Job Families (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Job Family (Benefits)	Multi-instance	-	Benefits Eligibility
Job Family Group (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Job Family Group (Benefits)	Multi-instance	-	Benefits Eligibility
Plan Dimension as Job Family	Self referencing instance	-	Worktags - All Functional Areas

Job Classification **Links: 10 | Single: 0 | Multi: 10**

Statutory classifications such as EEO-1 categories or ISCO codes.

Tip: Used in compliance reporting (EEO-1, AAP).

Worker Field	Type	Built-in Prompts	Category
• Job Classifications - Primary Position	Multi-instance	-	Job & Position
Additional Job Classifications	Multi-instance	-	Job & Position
Job Classification - All Positions	Multi-instance	-	Job & Position
Job Classifications	Multi-instance	-	Job & Position
Job Classifications (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Job Classifications (Benefits)	Multi-instance	-	Benefits Eligibility

Worker Field	Type	Built-in Prompts	Category
Job Classifications - Job Profile	Multi-instance	-	Benefits Eligibility
Job Classifications - Job Profile (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Job Classifications - Position	Multi-instance	-	Benefits Eligibility
Job Classifications - Position (Benefit Jobs)	Multi-instance	-	Benefits Eligibility

Management Level **Links: 8 | Single: 5 | Multi: 2**

Seniority tier (Individual Contributor, Manager, Director, and so on).

Tip: Good for layering and span-of-control analysis.

Worker Field	Type	Built-in Prompts	Category
• Management Level	Single instance	-	Employment
Management Level (Benefits)	Single instance	-	Benefits Eligibility
Management Level - Primary Position	Single instance	-	Employment
Management Level for Committee Candidate	Single instance	-	Committee Candidates
Prospect Level	Single instance	-	Prospect
Management Level - All Positions	Multi-instance	-	Employment
Management Levels (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Plan Dimension as Management Level	Self referencing instance	-	Worktags - All Functional Areas

Job Level **Links: 2 | Single: 1 | Multi: 0**

Level within the job architecture.

Tip: Compare levels across job families.

Worker Field	Type	Built-in Prompts	Category
• Job Level - Primary Position	Single instance	-	Employment
Plan Dimension as Job Level	Self referencing instance	-	Worktags - All Functional Areas

Classification

Worker Type **Links: 8 | Single: 4 | Multi: 2**

Employee vs. Contingent Worker.

Tip: The first filter in almost every headcount report.

Worker Field	Type	Built-in Prompts	Category
• Worker Type	Single instance	-	Employment
Candidate Worker Type	Single instance	-	Job & Position
Worker Type as of Period End Date	Single instance	-	Time Off
Worker Type as of Period Start Date	Single instance	-	Time Off
Candidate Worker Types	Multi-instance	-	Job & Position

Worker Field	Type	Built-in Prompts	Category
Headcount Plan Template Worker Type Filters	Multi-instance	Headcount Plan Template for Headcount Plan to Financial Budget Reporting Headcount Plan Template (Secured by CSR to Headcount Plan Versions for Headcount Plan Template)	Workforce Planning (Do Not Use)
Plan Dimension as Worker Type	Self referencing instance	-	Worktags - All Functional Areas

Employee Type **Links: 6 | Single: 1 | Multi: 5**

Regular, Temporary, Fixed Term and so on (tenant-configured).

Tip: Multi-instance on Worker because it is held per position.

Worker Field	Type	Built-in Prompts	Category
• Employee Type	Multi-instance	-	Benefits Eligibility
Employee Type - Primary Position	Multi-instance	-	Job & Position
Employee Types	Multi-instance	-	Benefits Eligibility
Employee Types (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Headcount Plan Template Employee Type Filters	Multi-instance	Headcount Plan Template for Headcount Plan to Financial Budget Reporting Headcount Plan Template (Secured by CSR to Headcount Plan Versions for Headcount Plan Template)	Workforce Planning (Do Not Use)
TB ESI Worker Employee Type	Single instance	-	Worker

Contingent Worker Type **Links: 5 | Single: 1 | Multi: 2**

Contractor, Consultant, Vendor and so on.

Tip: Used with supplier fields for contingent workforce reporting.

Worker Field	Type	Built-in Prompts	Category
• Contingent Worker Type	Single instance	-	Benefits Eligibility
Contingent Worker Types (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Headcount Plan Template Contingent Worker Type Filters	Multi-instance	Headcount Plan Template for Headcount Plan to Financial Budget Reporting Headcount Plan Template (Secured by CSR to Headcount Plan Versions for Headcount Plan Template)	Workforce Planning (Do Not Use)
Plan Dimension as Contingent Worker Type	Self referencing instance	-	Worktags - All Functional Areas

Time Type Links: 4 | Single: 1 | Multi: 2

Full time or Part time.

Tip: Combine with FTE for capacity reporting.

Worker Field	Type	Built-in Prompts	Category
• Time Type	Single instance	-	Employment
Plan Dimension as Time Type	Self referencing instance	-	Worktags - All Functional Areas
Position Time Type	Multi-instance	-	Benefits Eligibility
Position Time Types (Benefit Jobs)	Multi-instance	-	Benefits Eligibility

Pay Rate Type Links: 3 | Single: 1 | Multi: 1

Salaried or Hourly.

Tip: Drives which compensation fields are relevant.

Worker Field	Type	Built-in Prompts	Category
• Pay Rate Type	Single instance	-	Benefits Eligibility
Pay Rate Types (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Plan Dimension as Pay Rate Type	Self referencing instance	-	Worktags - All Functional Areas

Organization

Organization Links: 35 | Single: 11 | Multi: 21

The generic organization object, which covers supervisory, cost center, company, region, matrix and custom organizations.

Tip: Hierarchy fields return Organization; filter by Organization Type when needed.

Worker Field	Type	Built-in Prompts	Category
• Supervisory Organization	Single instance	-	Organization
• Organizations Managed	Multi-instance	-	Organization
Cost Center - Superior	Single instance	-	Organization
Last Review - Organization	Single instance	-	Goals and Reviews
Organization - Roll-up to My Level 1 Organizations	Single instance	Assignable Role	Organization
Processing Position Supervisory Organization	Single instance	-	Payroll Check Printing (Don't Use)
Selected Organization for Headcount	Single instance	Organizations by Type	Scorecard
Supervisory Organization (Benefits)	Single instance	-	Benefits Eligibility
Supervisory Organization - Effective Dated	Single instance	Employee Review	Organization
Supervisory Organization Top	Single instance	-	Organization
Assigned Organization	Multi-instance	-	Benefits Eligibility
Assigned Organizations (Benefit Jobs)	Multi-instance	-	Benefits Eligibility

+ 20 more Worker fields return Organization. See the "All Worker Fields" tab in the workbook (filter Related Business Object).

Supervisory Organization Links: 13 | Single: 3 | Multi: 8

The worker's reporting structure. It drives security, business process routing and the org chart.

Tip: The main grouping for manager self-service reports.

Worker Field	Type	Built-in Prompts	Category
• Supervisory Organization - Primary Position	Single instance	-	Organization
Manager's Default Supervisory Organization	Single instance	-	Organization
Supervisory Organization - Organization Top -> Organization	Single instance	-	Organization
All Supervisory Organizations with Worker in Leadership Role	Multi-instance	-	Organization
Manager's Default Supervisory Organization (DO NOT USE)	Multi-instance	-	Organization
Plan Dimension as Supervisory Organization	Self referencing instance	-	Worktags - All Functional Areas
Supervisory Organization - All Positions	Multi-instance	-	Organization
Supervisory Organization and Superior Organizations Viewable by Everyone	Multi-instance	-	Organization
Supervisory Organization for Committee Candidate	Multi-instance	-	Committee Candidates
Supervisory Organizations (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Supervisory Organizations - Manager not in Management Chain	Multi-instance	-	Organization
Supervisory Organizations with Worker in Leadership Role	Multi-instance	-	Organization

Cost Center **Links: 8 | Single: 1 | Multi: 5**

Financial organization used for costing and accounting.

Tip: Key for finance and HR reconciliation and payroll costing.

Worker Field	Type	Built-in Prompts	Category
• Cost Center	Single instance	-	Organization
Cost Center for Requester	Multi-instance	-	Purchase Order
Cost Centers	Multi-instance	-	Organization
Cost Centers Viewable by Everyone	Multi-instance	-	Organization
Headcount Plan Template Cost Center Filters	Multi-instance	Headcount Plan Template for Headcount Plan to Financial Budget Reporting Headcount Plan Template (Secured by CSR to Headcount Plan Versions for Headcount Plan Template)	Workforce Planning (Do Not Use)
Plan Dimension as Cost Center	Self referencing instance	-	Worktags - All Functional Areas
Processing Position Cost Centers	Multi-instance	-	Payroll Check Printing (Don't Use)

Company **Links: 5 | Single: 3 | Multi: 1**

Legal entity employing the worker.

Tip: Needed for statutory, tax and payroll reporting.

Worker Field	Type	Built-in Prompts	Category
• Company	Single instance	-	Organization
Company (Benefits)	Single instance	-	Benefits Eligibility

Worker Field	Type	Built-in Prompts	Category
Federal Withholding: Company	Single instance	-	Worker Tax Elections
Companies (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Plan Dimension as Company	Self referencing instance	-	Worktags - All Functional Areas

Region **Links: 6 | Single: 1 | Multi: 4**

Region organization (geographic or business).

Tip: Common for global roll-ups.

Worker Field	Type	Built-in Prompts	Category
• Region	Single instance	-	Organization
Headcount Plan Template Region Filters	Multi-instance	Headcount Plan Template for Headcount Plan to Financial Budget Reporting Headcount Plan Template (Secured by CSR to Headcount Plan Versions for Headcount Plan Template)	Workforce Planning (Do Not Use)
Plan Dimension as Region	Self referencing instance	-	Worktags - All Functional Areas
Processing Position Regions	Multi-instance	-	Payroll Check Printing (Don't Use)
Regions	Multi-instance	-	Organization
Regions Viewable by Everyone	Multi-instance	-	Organization

Matrix Organization **Links: 4 | Single: 0 | Multi: 4**

Dotted-line organization.

Tip: Use for project or matrix reporting structures.

Worker Field	Type	Built-in Prompts	Category
• Matrix Organizations	Multi-instance	-	Organization
Matrix Organizations (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Matrix Organizations (Benefits)	Multi-instance	-	Benefits Eligibility
Matrix Organizations - Primary Position	Multi-instance	-	Organization

Location **Links: 30 | Single: 18 | Multi: 11**

Physical or virtual work location; sets time zone, holiday calendar, tax jurisdiction and location hierarchy.

Tip: Combine with Location Address fields for city- and country-level reporting.

Worker Field	Type	Built-in Prompts	Category
• Location	Single instance	-	Organization
Location (Benefits)	Single instance	-	Benefits Eligibility
Location (USA)	Single instance	-	Organization
Location - Effective Dated	Single instance	Employee Review	Organization
Processing Position Location	Single instance	-	Payroll Check Printing (Don't Use)
Work Location for Committee Candidate	Single instance	-	Committee Candidates

Worker Field	Type	Built-in Prompts	Category

INT LVD Worker Pay Group as of Termination Date for INT Studio Payroll Input Processor Inbound	Single instance	-	Integration
INT LVD Worker Studio Payroll Input Processor Inbound Pay Group as of Termination Date	Single instance	-	Integration

Union **Links: 18 | Single: 0 | Multi: 18**

Labor union organization.

Tip: Used with seniority date and collective agreements.

Worker Field	Type	Built-in Prompts	Category
• Unions Active	Multi-instance	-	Union
Active Dues Paying Unions as of Period Start Date	Multi-instance	-	Payroll
Active Dues Paying Unions as of Sub Period End Date	Multi-instance	-	Payroll
Active Unions as of Leave Start Date	Multi-instance	-	Leave of Absence
Active Unions as of Period End Date	Multi-instance	-	Time Off
Active Unions as of Period Start Date	Multi-instance	-	Time Off
Active Unions as of Processing Date	Multi-instance	-	Payroll
Active Unions as of Sub-Period End Date	Multi-instance	-	Payroll
Dues Paying Unions as of Period Start Date	Multi-instance	-	Payroll
Dues Paying Unions as of Sub Period End Date	Multi-instance	-	Payroll
Unions Active and Paid Dues	Multi-instance	-	Union

Worker Field	Type	Built-in Prompts	Category
Unions All	Multi-instance	-	Union

+ 6 more Worker fields return Union. See the "All Worker Fields" tab in the workbook (filter Related Business Object).

Contact

Address **Links: 20 | Single: 8 | Multi: 11**

Postal address (home or work), with usage types and effective dates.

Tip: Prefer the flattened text fields (City, State, Postal Code) for exports.

Worker Field	Type	Built-in Prompts	Category
• Primary Home Address	Single instance	-	Benefits Eligibility
• Primary Work Address	Single instance	-	Address & Phone
Candidate Address	Single instance	-	Address & Phone
International Assignment Work Address	Single instance	-	Address & Phone
Payee Address	Single instance	-	Address & Phone
Primary Address from Work or Home or Location	Single instance	-	Address & Phone
Public Primary Work Address	Single instance	-	Address & Phone
Public Primary Work Shipping Address	Single instance	-	Address & Phone
Addresses	Multi-instance	-	Address & Phone
Addresses - Local	Multi-instance	-	Address & Phone
Addresses without Default Work Address	Multi-instance	-	Address & Phone
All Home Addresses	Multi-instance	-	Address & Phone

+ 7 more Worker fields return Address. See the "All Worker Fields" tab in the workbook (filter Related Business Object).

Phone Data **Links: 15 | Single: 6 | Multi: 9**

Phone number with device type, usage and country code.

Tip: Multi-instance: filter on usage (Home/Work) and Primary.

Worker Field	Type	Built-in Prompts	Category
• Phone Numbers	Multi-instance	-	Address & Phone
Mobile Phone for One Time Passcode	Single instance	-	Address & Phone
Primary Home Phone	Single instance	-	Address & Phone
Primary Work Mobile Phone	Single instance	-	Address & Phone
Primary Work Phone	Single instance	-	Address & Phone
Public Primary Home Phone	Single instance	-	Address & Phone
Public Primary Work Phone	Single instance	-	Address & Phone
Home Phones	Multi-instance	-	Address & Phone
Mobile Phone Number with Country Code	Multi-instance	-	Address & Phone
Mobile Phones	Multi-instance	-	Address & Phone
Public Home Phones	Multi-instance	-	Address & Phone
Public Phones	Multi-instance	-	Address & Phone

+ 3 more Worker fields return Phone Data. See the "All Worker Fields" tab in the workbook (filter Related Business Object).

Internet Email Address Links: 4 | Single: 0 | Multi: 4

Email address with usage (Home/Work) and Primary flag.

Tip: Use Email - Primary Work (text) for most exports.

Worker Field	Type	Built-in Prompts	Category
Email - Home	Multi-instance	-	Address & Phone
Email - Work	Multi-instance	-	Address & Phone
Emails	Multi-instance	-	Address & Phone
Public Email Addresses	Multi-instance	-	Address & Phone

Geography

Country Links: 16 | Single: 8 | Multi: 7

Country reference data.

Tip: Many fields return Country: location, address, nationality and citizenship.

Worker Field	Type	Built-in Prompts	Category
• Location Address - Country	Single instance	-	Benefits Eligibility
• Primary Home Address - Country	Single instance	-	Benefits Eligibility
• Primary Work Address - Country	Single instance	-	Address & Phone
Candidate Country	Single instance	-	Address & Phone
Country of Birth (Locale Sensitive)	Single instance	-	Basic Bio
Location Address - Country (for Trended Workers)	Single instance	-	Benefits Eligibility
Payment Election Default Country	Single instance	-	Payment Elections
Personal Information Change Event Country	Single instance	-	Uncategorized
Citizenship Countries	Multi-instance	-	Benefits Eligibility
Countries	Multi-instance	-	Uncategorized
Headcount Plan Template Country Filters	Multi-instance	Headcount Plan Template for Headcount Plan to Financial Budget Reporting Headcount Plan Template (Secured by CSR to Headcount Plan Versions for Headcount Plan Template)	Workforce Planning (Do Not Use)
International Assignment Countries	Multi-instance	-	International Assignments

+ 4 more Worker fields return Country. See the "All Worker Fields" tab in the workbook (filter Related Business Object).

Country Region Links: 16 | Single: 14 | Multi: 2

State, province or region within a country.

Tip: US state reporting (tax, remote work).

Worker Field	Type	Built-in Prompts	Category
• Primary Home Address - State	Single instance	-	Benefits Eligibility
Candidate Region	Single instance	-	Address & Phone
Hukou Region	Single instance	-	Country Specific
Hukou Region (Country Securable)	Single instance	-	Country Specific

Worker Field	Type	Built-in Prompts	Category
Hukou Region as of Period End Date	Single instance	-	Time Off
Hukou Region as of Period Start Date	Single instance	-	Time Off
Location Address - Province (Canada)	Single instance	-	Benefits Eligibility
Location Address - Region (Any Country)	Single instance	-	Payroll
Location Address - State (United States)	Single instance	-	Benefits Eligibility
Native Region	Single instance	-	Country Specific
Primary Home Address - Province	Single instance	-	Benefits Eligibility
Primary Home Address State (As of Period End Date)	Single instance	-	Time Off

+ 4 more Worker fields return Country Region. See the "All Worker Fields" tab in the workbook (filter Related Business Object).

Demographics

Gender **Links: 5 | Single: 5 | Multi: 0**

Gender reference values.

Tip: Sensitive. Use Reporting Gender for statutory reporting.

Worker Field	Type	Built-in Prompts	Category
• Gender	Single instance	-	Benefits Eligibility
• Reporting Gender	Single instance	-	Basic Bio
Gender (Locale Sensitive)	Single instance	-	Benefits Eligibility
Gender for Committee Candidate	Single instance	-	Committee Candidates
Reporting Gender (Locale Sensitive)	Single instance	-	Basic Bio

Ethnicity **Links: 11 | Single: 8 | Multi: 3**

Race and ethnicity values (country-specific).

Tip: Sensitive. Required for EEO-1 and diversity reporting.

Worker Field	Type	Built-in Prompts	Category
• Race/Ethnicity	Single instance	-	Basic Bio
Ethnicity Code	Single instance	-	Basic Bio
Ethnicity Code (Country Securable)	Single instance	-	Basic Bio
Race/Ethnicity (Locale Sensitive and Country Securable)	Single instance	-	Basic Bio
Race/Ethnicity (Locale Sensitive)	Single instance	-	Basic Bio
Race/Ethnicity - Visual Survey	Single instance	-	Basic Bio
Race/Ethnicity - Visual Survey (Country Securable)	Single instance	-	Basic Bio
Race/Ethnicity for Committee Candidate	Single instance	-	Committee Candidates
Ethnicities (multiple allowed - locale sensitive)	Multi-instance	-	Basic Bio
Race/Ethnicity - Visual Survey (Multiple Allowed and Country Securable)	Multi-instance	-	Basic Bio
Race/Ethnicity - Visual Survey (multiple allowed)	Multi-instance	-	Basic Bio

Marital Status **Links: 2 | Single: 2 | Multi: 0**

Marital status values (country-specific).

Tip: Sensitive personal data.

Worker Field	Type	Built-in Prompts	Category
• Marital Status	Single instance	-	Benefits Eligibility
Marital Status (Country Securable)	Single instance	-	Benefits Eligibility

Compensation

Currency Links: 29 | Single: 29 | Multi: 0

Currency reference data.

Tip: Always report a currency field next to any Currency-type amount.

Worker Field	Type	Built-in Prompts	Category
• Total Base Pay - Currency	Single instance	-	Benefits Eligibility
Benefits Annual Rate Currency	Single instance	-	Benefits
Company or Company Hierarchy Currency	Single instance	-	Organization
Compensation Range - Currency	Single instance	-	Compensation
Competitive Market Target Benchmark - Currency	Single instance	-	Compensation
Currency for Primary Position	Single instance	-	Contingent Worker Information
Hourly Rate - Currency	Single instance	-	Compensation
Last Base Pay Increase - Currency	Single instance	-	Compensation
Last Base Pay Increase in Reporting Currency - Currency	Single instance	-	Compensation
Last Bonus Payment - Currency	Single instance	-	Compensation
Last Bonus Payment in Reporting Currency - Currency	Single instance	-	Compensation
Payment Election Default Currency	Single instance	-	Payment Elections

+ 17 more Worker fields return Currency. See the "All Worker Fields" tab in the workbook (filter Related Business Object).

Frequency Links: 24 | Single: 24 | Multi: 0

Pay frequency (Annual, Monthly, Hourly, and so on).

Tip: Always pair amounts with frequency, or use Annualized fields.

Worker Field	Type	Built-in Prompts	Category
• Primary Compensation Basis - Frequency	Single instance	-	Compensation
• Total Base Pay - Frequency	Single instance	-	Benefits Eligibility
Compensation Range - Frequency	Single instance	-	Compensation
Frequency - Payroll	Single instance	-	Payroll Interface
Frequency for Primary Position	Single instance	-	Contingent Worker Information
Pay Frequency - Payroll	Single instance	-	Payroll Interface
Processing Position Total Base Pay Frequency	Single instance	Report Writer Provided Top Level Instance	Payroll Check Printing (Don't Use)
Regular Pay Group Frequency for Worker's Primary Position	Single instance	As Of	Job & Position
Target Bonus - Frequency	Single instance	-	Compensation
Target Bonus Annualized in Reporting Currency - Frequency	Single instance	-	Compensation
Target Commission - Frequency	Single instance	-	Compensation
Target Commission Annualized in Reporting Currency - Frequency	Single instance	-	Compensation

+ 12 more Worker fields return Frequency. See the "All Worker Fields" tab in the workbook (filter Related Business Object).

Compensation Grade **Links: 4 | Single: 2 | Multi: 1**

Pay grade.

Tip: Use with Compa-Ratio and Pay Range Penetration.

Worker Field	Type	Built-in Prompts	Category
• Compensation Grade	Single instance	-	Benefits Eligibility
Retained Compensation Grade	Single instance	-	Compensation
Compensation Grades (Benefit Jobs)	Multi-instance	-	Benefits Eligibility
Plan Dimension as Compensation Grade	Self referencing instance	-	Worktags - All Functional Areas

Compensation Grade Profile **Links: 3 | Single: 2 | Multi: 1**

Variant of a grade with its own pay range (for example by geography).

Tip: Determines which pay range applies.

Worker Field	Type	Built-in Prompts	Category
• Compensation Grade Profile	Single instance	-	Benefits Eligibility
Retained Compensation Grade Profile	Single instance	-	Compensation
Compensation Grade Profile (Benefit Jobs)	Multi-instance	-	Benefits Eligibility

Compensation Plan Assignment **Links: 12 | Single: 0 | Multi: 12**

A worker's assignment to a salary, hourly, allowance, bonus, merit, commission or stock plan.

Tip: Drill in to get the plan, amount, currency and frequency for each plan.

Worker Field	Type	Built-in Prompts	Category
• Allowance Plan Assignments	Multi-instance	-	Compensation
• Bonus Plan Assignments	Multi-instance	-	Compensation
• Salary Plan Assignments	Multi-instance	-	Compensation
• Stock Plan Assignments	Multi-instance	-	Compensation
Calculated Plan Assignments	Multi-instance	-	Compensation
Commission Plan Assignments	Multi-instance	-	Compensation
Compensation Plan Assignments	Multi-instance	-	Compensation
Compensation Plan Assignments for Current Year	Multi-instance	-	Compensation
Hourly Plan Assignments	Multi-instance	-	Compensation
Merit Plan Assignments	Multi-instance	-	Compensation
Period Salary Plan Assignments	Multi-instance	-	Compensation
Unit Salary Plan Assignments	Multi-instance	-	Compensation

Compensation Pay Range **Links: 2 | Single: 2 | Multi: 0**

Minimum, midpoint and maximum of a pay range.

Tip: Use for range-positioning analysis.

Worker Field	Type	Built-in Prompts	Category
• Total Base Pay Range	Single instance	-	Compensation
Primary Compensation Basis Pay Range	Single instance	-	Compensation

Employee Compensation Event Links: 6 | Single: 3 | Multi: 3

Compensation change business process event.

Tip: Use to see the history of base pay changes.

Worker Field	Type	Built-in Prompts	Category
• Compensation History - All Statuses	Multi-instance	-	Compensation
• Compensation History - Base Pay Changes Only	Multi-instance	-	Compensation
Last Base Pay Increase	Single instance	-	Compensation
Last Compensation Change	Single instance	-	Compensation
Most Recent Compensation Event	Single instance	-	Compensation
Compensation History	Multi-instance	-	Compensation

One-Time Payment Links: 3 | Single: 0 | Multi: 3

Bonuses and one-time payments.

Tip: Use for payout and spot-award reporting.

Worker Field	Type	Built-in Prompts	Category
All Bonus & One-Time Payments	Multi-instance	-	Compensation
Bonus & One-Time Payments	Multi-instance	-	Compensation
Bonus & One-Time Payments - All Statuses	Multi-instance	-	Compensation

Payroll

Payroll Result Line Links: 9 | Single: 0 | Multi: 9

Line from a payroll result (earning or deduction).

Tip: Calculation-heavy; filter by period with the built-in prompts.

Worker Field	Type	Built-in Prompts	Category
Most Recent Arrears Transactions for Worker	Multi-instance	Company	Payroll
Payroll Hours Related Result Lines for Period	Multi-instance	-	Time Off
Payroll Hours Related Result Lines YTD	Multi-instance	-	Time Off
Payroll Result Lines Created in the Past 12 Months (All)	Multi-instance	-	Payroll
Payroll Result Lines Created in the Past 12 Months (Completed)	Multi-instance	-	Payroll
Payroll Result Lines within Date Range (All)	Multi-instance	Result Lines Period Date Indicator	Payroll
Payroll Result Lines within Date Range (Completed)	Multi-instance	Result Lines Period Date Indicator	Payroll
Payroll Time Off Units Related Result Lines for Period	Multi-instance	-	Time Off
Payroll Time Off Units Related Result Lines YTD	Multi-instance	-	Time Off

Worker Tax Election Links: 21 | Single: 0 | Multi: 21

Tax withholding elections (federal, state, local).

Tip: Used in US payroll tax reporting.

Worker Field	Type	Built-in Prompts	Category
All Local County Withholding (Resident)	Multi-instance	-	Payroll
All Local County Withholding (Work)	Multi-instance	-	Payroll

Worker Field	Type	Built-in Prompts	Category
All State Withholding Elections	Multi-instance	Effective Date	Payroll
Erroneously Has Exempt Reason or Domicile State	Multi-instance	-	Worker Tax Elections

4. Reporting Best Practices

Start from the right data source

Use "All Active Employees", "All Workers" or an indexed data source, and filter on Worker Type and Active Status. Indexed data sources are faster for large tenants.

Mind multi-instance fields

Multi-instance fields (for example Worker's Manager, Employee Type, Phone Numbers) can return several values. In Advanced reports, add the object as a related business object or use subfilters to get one row per value.

Pair amounts with their context

A Currency field is meaningless without its Currency and Frequency. For global comparisons, use the "Annualized in USD" or "in Reporting Currency" variants.

Respect built-in prompts

Fields with prompts (As Of, End Date, Period) are evaluated for the prompt value. Supply prompts in the report or calculated field so results are deterministic.

Check authorized usage

Fields whose Authorized Usage is not "Default Areas" (for example Benefits Eligibility, Security Attribute, Calculation Engine) are meant for specific contexts and may not appear in every report type.

Protect sensitive data

Personal, demographic, national ID and compensation fields are controlled by domain security. Prefer aggregated fields (Age Group, Reporting Gender) for analytics.

Reuse before you build

Search the 408 calculated fields already in the PBO before creating a new one, to avoid duplicates.

Appendix A. All Related Business Objects

All 635 objects from Worker_RBO.xlsx, sorted by number of links (most connected first). These names appear twice in the source (distinct objects that share a display name): Benefit Plan, Certification, Competency, Job History, Prospect, Work Assignment.
